INDEPENDENT AUDITORS' REPORT

To the Ministry of Waters and Forests – Project Management Unit - Integrated Nutrients Pollution Control Project, financed by IBRD Loan 8597-RO

Report on the Project Financial Statements

Opinion

We have audited the accompanying Project Financial Statements of of the Integrated Nutrients Pollution Control Project which comprise statement of resources and uses of funds, statement of expenditures, financial statement of loan, statement of treasury account and other explanatory notes for the period April 13, 2017 – December 31, 2017. The project is funded the International Bank for Reconstruction and Development (IBRD) through the Loan no. 8597 – RO signed on April 14, 2016, ratified through the decision no. 46 on April 03, 2017.

In our opinion, the accompanying Project Financial Statements for the year ended 31 December 2017 is prepared, in all material respects, in accordance with the basis of accounting procedures and to meet the requirements of the General Conditions for the loans issued by IBRD.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Project Financial Statements* section of our report. We are independent of the Project in accordance with ethical requirements that are relevant to our audit of the financial statements in Romania, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 5 to the Project Financial Statements, which describes the basis of preparation. The Project Financial Statements are prepared to assist the Project to meet the requirements of the Contract. As a result, the Schedules may not be suitable for another purpose. Our report is intended solely for the UMP and IBRD, should not be distributed to parties other than the UMP or the IBRD. Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the Project Financial Statements in accordance with the General Conditions for the loans issued by IBRD, and for such internal control as management determines is necessary to enable the preparation of the Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Project Financial Statements, management is responsible for assessing the UMP's ability to continue as a going concern in accordance with agreements provisions, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the UMP or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the UMP's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Project Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on a basis of these Financial Statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Project Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Project Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Project to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

GENERAL INFORMATION

Reporting entity

The Project is implemented by the Ministry of Water and Forest of Romania by means of the PMU within the entity.

Loan Agreement

The Government of Romania implemented starting with 2008 the “Integrated Nutrients Pollution Control Project” – the Original Project (INPCP), having a total value of EUR 60 million, financed through an International Bank for Reconstruction and Development loan, a Global Environmental Facility grant and local funds. The INPCP became effective on December 8, 2008 for a total IBRD loan of EUR 50 million (LN 4873-RO) and GEF Grant of US\$5.5 million (WBTF058040-RO), respectively. The Project Development Object is to support the Government of Romania to meet the European Union (EU) Nitrates Directive requirements by (a) reducing nutrient discharges to water bodies, (b) promoting behavioral change at the commune level, and (c) strengthening institutional and regulatory capacity.

After the first loan, no. 4873-RO, ratified by law 228/2008, Romania has received the Additional Loan, no. 8597-RO in amount of 48 million Euros from the International Bank for Reconstruction and Development (IBRD) to support the implementation of the “Integrated Nutrients Pollution Control Project-Additional Financing”. The Loan agreement no. 8597 RO between Romania and IBRD was signed at Bucharest on April 14, 2016 and ratified by law no. 46/03.04.2018. The subsidiary agreement between Ministry of Public Finance and Ministry of Water and Forest was signed on May 08th, 2017.

The Integrated Nutrients Pollution Control Project – Additional Financing (financed by the IBRD loan no. LN8597-RO) continues to support the scaling up of activities initiated under the original Project. The Project remains highly relevant for Romania’s obligations related to the implementation of the requirements of EU Nitrates Directive, in light of continued challenges Romania is facing with nutrient pollution countrywide, and successful experiences gained by the original Project; it continues to be the only project in Romania that finances direct investments in rural communities, bringing, at the same time important environmental as well as social-economic benefits. INPCP-AF helps with promoting environmentally-friendly, sustainable development of natural resources and agriculture in rural areas and strengthening Romania’s institutional and regulatory capacity for meeting EU requirements.

The Project Development Objective (PDO) is to support the Borrower with a view of meeting the requirements of the EU Nitrates Directive at national level. This shall be accomplished by:

- a) Investment promotion in local communities for reducing nutrient discharges in water courses;
- b) Enhancing institutional capacity and coordination within ministries, institutions, agencies and all relevant stakeholders at local and national level for the regulation, implementation, monitoring and inspection of the requirements of the EU Nitrates Directive, and
- c) Promoting behavioral changes and good agricultural practice at local community level.

FOR IDENTIFICATION PURPOSES ONLY

MOORE STEPHENS NSC ASSURANCE SRL

**MINISTRY OF WATER AND FOREST
LOAN (8597 – RO) FOR THE INTEGRATED NUTRIENTS POLLUTION CONTROL
31 DECEMBER 2017 – all the amounts are expressed in EUR, unless otherwise stated**

The Loan was declared effective on April 13, 2017, and has a closing date of March 31, 2022 and a four-month grace period ending on July 31, 2022.

Destination of Borrowed Funds

The Project is structured in four parts, as described below:

- Part I: Investments in Local Communities to Reduce Nutrient Pollution (EUR 35 million)
- Part II: Institutional Strengthening and Capacity Building (EUR 5.5 million)
- Part III: Public Awareness and Information Support (EUR 3.5 million)
- Part IV: Project Management (EUR 4 million).

The aforementioned parts of the Project are further presented below:

Part I: Investments in Local Communities to Reduce Nutrient Pollution.

Implementation of Sub-projects proposed by Beneficiaries in any of the areas set forth in the Operational Manual, including the following: (i) developing local community storage, composting and handling systems, packing/pelleting stations and biogas facilities, all to promote better management of livestock and household waste; (ii) planting of vegetative buffer strips, including tree planting and afforestation; (iii) sewage and wastewater treatment activities; and (iv) provision of equipment to upgrade the existing manure storage and/or composting facilities;

Part II: Institutional Strengthening and Capacity Building.

1. Providing support to:
 - (a) ANAR to monitor and report to the MEWF and EU on the quality of surfacewater and groundwater under the EU Nitrates Directive and the EU Water Framework Directive, through *inter alia*:
 - (i) the acquisition of equipment for groundwater wells;
 - (ii) the construction of groundwater wells;
 - (iii) the acquisition of laboratory equipment and related software; and
 - (iv) the provision of technical assistance for, *inter alia*, the carrying out of studies and the development of software; and
 - (b) institutions represented in the Inter-Ministerial Committee for Application of the EU Nitrates Directive (ICA).
2. Carrying out of a comprehensive training program for the staff of the relevant national, regional and county level agencies on monitoring, control and reporting under the EU Nitrates Directive and EU Water Framework Directive.
3. Improving the capacity building system able to support the scaling up, at the national level, of the implementation process of the EU Nitrate Directive and Water Framework Directive.
4. Providing technical assistance to: (i) update the Code of Good Agricultural Practices and revise action programs; and (ii) carry out activities to promote the adoption by the farmers of the improved nutrient management practices set forth in the Code of Good Agricultural Practices.
5. Developing knowledge and training activities (through providers), and supporting on-farm demonstrations to improve the adoption and compliance by farmers of the Code of Good Agricultural Practices.

7 5. MAI. 2018

MOORE STEPHENS KSC ASSURANCE SRL

MINISTRY OF WATER AND FOREST
LOAN (8597 – RO) FOR THE INTEGRATED NUTRIENTS POLLUTION CONTROL
31 DECEMBER 2017 – all the amounts are expressed in EUR, unless otherwise stated

Part III: Public Awareness and Information Support.

1. Carrying out of public awareness activities at the local, river basin, national and regional levels, including meetings, workshops, field trips, study tours and mass media events and products, to introduce the Project and its benefits, to promote improved rural sanitation and implementation of good agricultural practices.
2. Providing training and support to potential Beneficiaries during the preparation and implementation of Sub-projects.

Part IV: Project Management

Supporting the PMU in connection with Project implementation, monitoring, reporting, evaluation and impact assessment through the provision of: (i) funds for Incremental Operating Costs and for the acquisition of goods (including cars); and (ii) non-consultant services and consultants' services including, *inter alia*, audit and social surveys; and (iii) training.

The Loan has only one disbursement category

The following table sets forth the types of items to be financed out of the proceeds of the Loan under the single disbursement category and the percentage of expenditure to be financed from the Loan:

Loan allocation

In compliance with the Loan Agreement, the categories of expenditures financed through the IBRD loan proceeds comprise of the following:

Code	Category Description	Amount allocated from the loan EUR	Amount allocated from the loan RON
1.	Goods, works, non-consulting services, consultants` services (including audits), training and incremental operating costs for the parts of the Project set out in Schedule 1 to the Agreement	48.000.000	216.873.000
	Total project financing	48.000.000	216.873.000

Disbursement is monitored in the Loan currency - Euro.

Note: For the purposes of determining the value of the loan, the euro / lei rate used was that registered on 13 April 2017, the date of entry into force of the project, at the NBR exchange rate 4,5182 lei / euro.

The Project is financed from the State Budget through the State Treasury. The MoPF makes withdrawals from the Loan based on the statement of expenditures (SOEs) and documentation

15. MAI. 2018
MOORE STEPHENS NSC ASSURANCE SRL

MINISTRY OF WATER AND FOREST
LOAN (8597 – RO) FOR THE INTEGRATED NUTRIENTS POLLUTION CONTROL
31 DECEMBER 2017 – all the amounts are expressed in EUR, unless otherwise stated

provided by the PMU within MoWF. All eligible expenditures are 100% financed from the Loan, tax included.

For the purposes of this report:

- a) the terms "Statement of Expenditures" and "Summary Sheets" mean expense pre-defined reports prepared by the PMU and used by the Borrower to submit to the IBRD with the applications for reimbursement of payments made by the PMU for project purposes.
- b) the term "State Treasury Account" means: a bank account opened at the State Treasury of Bucharest where MoWF is receiving the requested financing from the MoPF. No Designated Account is used for the project. MoWF would use pre-financing from State Budget funds and then the MoPF would disburse periodically funds from the IBRD loan using the reimbursement method for project eligible payments incurred. The Treasury makes the monthly budgetary openings as requested, and the Project would receive its allocations in title number 65 in the Treasury system. The Borrower would submit withdrawal applications for the eligible expenditures. The supporting documentation for disbursements would include summary sheets and statement of expenditures.

The account in commercial bank used for foreign expenditures under the project is:

- RO25RNCB0484154021370004 for Euro currencies

5. ACCOUNTING POLICIES AND RECORDS

Basis of preparation

The special purpose Project Financial Statements are prepared under the historical cost convention, in accordance with and comply with relevant World Bank guidelines. The amounts presented in these financial statements are expressed in EUR (for monitoring the disbursement in the Loan currency) and RON (the currency of the expenses pre-financed from State Budget). The EUR amounts have been derived by applying the RON/EUR exchange rate as at the time of payment, for the internal payments using NBR exchange rate and for the external payments using auctions exchange rate given by the bank (Romanian Commercial Bank - BCR).

Fixed assets

Fixed assets are recognized at acquisition cost under property, plant and equipment category. Following their accounting transfer to the beneficiaries on the basis of the handover minutes, they are recognized on costs (after all documents have been submitted by the vendor).

Liabilities

i) Recording the loan

The loan will be recorded as a use of funds as the withdrawals take place. The entire amount of the loan will not appear as a debt element in the accounting of the PMU as repayment is done by MoPF.

ii) Acquisition of goods and services

The acquisition of goods and services is recorded as assets and expenditures respectively at the time of the payment, and is allocated between the different sub-projects and activities to which they refer.

Funding

PMU does not record the loan amounts received from the IBRD, this being done at MoPF level.

Use of funds

The funds used represent the amounts paid for the purpose of the Project by the PMU, funds pre-financed by the MoPF and channeled through the budgetary mechanism and classification within MoFW.

Foreign currency translation

Project expenditures are pre-funded from the State Budget, and then the eligible expenses are reimbursed from the Loan. The RON amounts are converted into EUR at the exchange rate RON/EUR of the National Bank of Romania, in force at the date of payments.

**MINISTRY OF WATER AND FOREST
LOAN (8597 – RO) FOR THE INTEGRATED NUTRIENTS POLLUTION CONTROL
31 DECEMBER 2017 – all the amounts are expressed in EUR, unless otherwise stated**

6. BANK ACCOUNTS UTILIZED WITHIN THE PROJECT, STATEMENT OF DESIGNATED ACCOUNT

All the funds are received through the Ministry's State Treasury Account. The internal payments are done through this account and for the external payments the funds are transferred to the Ministry's bank account from BCR (The Romanian Commercial Bank). No material balances are maintained in the commercial bank accounts which are used solely for external payments as Treasury cannot accommodate payments in foreign currencies.

Based on the Order of the Public Finance Ministry no 2004/2013, starting with 01st of January 2014 the PMU does not represent a separate entity from the MoWF in relation to the Treasury account and only uses the following treasury account for the reimbursable funds:

Account No.	RO74TREZ23A700502650100X
Depository Bank	State Treasury Treasury Activity and Public Accounting of the Bucharest Municipality
Branch	Bucharest Municipality
Address	No. 6-8, Splaiul Unirii, 4 th District, 040032
Related loan/credit	Loan no. 8597 – RO
Account Currency	RON

State treasury account as at 31 December 2017 in EUR

	IBRD EUR	Total EUR	IBRD RON	Total RON
Opening balance 1 January 2017	-	-		
Cash receipts from MoPF for funds approved by funds providers	165.237	165.237	757.098	757.098
Other cash receipts from MoPF:	-	-	-	-
- pre-financing for costs to be supported from IBRD funds	95.387	95.387	441.206	441.206
- other	-	-	-	-
Total cash receipts	260.624	260.624	1.198.304	1.198.304
Total payments from the State Treasury Account	260.624	260.624	1.198.304	1.198.304
Closing balance 31 DECEMBER 2017	-	-		

Note

PMU could use the Treasury account for several projects financed under reimbursable foreign loans, including the current one. The statement above represents only an extract of the project-related transactions channeled through the single Treasury account used by the Ministry. MoPF provides financing according to the budgets requested by the PMUs, therefore in case the budgets are not used, the remaining available financing may be reallocated to other projects. The expenses incurred are recorded separately under each project. Any remaining balances at the year-end are cancelled, as required by the budgetary legislation.

Part III	758	3.464	758	3.464
Part IV	259.866	1.194.840	259.866	1.194.840
TOTAL IBRD financed	260.624	1.198.304	260.624	1.198.304

Note 3. Legislation and Fiscal Environment in Romania

The legislation and fiscal environment in Romania and their implementation into practice change frequently and are subject to different interpretations by various Ministries of the Government. Over recent years, Romania has undergone substantial legal and economic changes.

Therefore, it is not possible to estimate what changes may occur or the resulting effect of any such changes on the Project development or future results of its development.

Note 4. Project financial statements presentation

The special-purpose Project Financial Statements are prepared on the cash basis of accounting. On this basis sources of funds are recognized when received rather than when earned, and uses are recognized when paid rather than when incurred. The special - purpose Project Financial Statements were prepared for complying with the Loan requirements and with the appropriate World Bank guidelines, and are not intended to be a complete presentation of the Project's operations.

NOTES TO THE PROJECT FINANCIAL STATEMENT (CONTINUED)

Note. 5. Counterpart contribution

Project-supported beneficiaries will ensure preparation of the feasibility studies and technical designs for investments envisaged under Part I of the project.

Note 6. Subsequent events

Project implementation has continued after the reporting date by having several contracts signed in early 2018 via procurement procedures carried out in 2017 and by launching new procurement procedures, according to the Project Procurement Plan and the Implementation Plan. In the 2018 Project budget, there are 28 million lei allocated for budgetary credits and 55 million lei for commitment credits which are assessed as sufficient for project activities.
