For selection of a **TECHNICAL SPECIALIST (ST/1 position)**

**within the Project Management Unit for Integrated Nutrient Pollution Control Project**

Ministry of Waters and Forests seeks recruitment of suitable staff to cover the Project Assistant position with an employment contract for a limited period within the Project Management Unit (PMU) responsible with the implementation of the World Bank (WB) supported Additional Financing of the Integrated Nutrient Pollution Control Project (INPCP-AF). Through the Additional Financing the overall development objective of the Project became to support the Government of Romania towards meeting the EU Nitrate Directive requirements at a national scale. The proposed interventions will build on the successes and lessons learned from the initial Project as well as from similar projects in Europe and Central Asia and other regions.

### Background

The Component 1 *“Investments in Local Communities to Reduce Nutrient Pollution”* provides support for effective investments and management practices to reduce nutrient pollution from agricultural, livestock and human sources. The beneficiaries (the administrative - territorial units - ATUs - or association of ATUs) will propose sub-projects, selected from a menu of investments based on agreed eligibility criteria and having the main objective to reduce water pollution with nutrients, in accordance with the provisions of the *“Guideline for procedures to be used for competitive financing and for potential Applicants”*. The menu of investments includes: 1. investment for livestock waste management (1.1. developing local community storage, composting and handling systems, packing/pelleting stations and biogas facilities, all to promote better management of livestock waste; 1.2. upgrading the existing manure storage and/or composting facilities); 2. Investment to mitigate pollution by wastewater (sewage and wastewater treatment activities); 3. Improving water bodies’ protection against nutrients and soil runoff (planting of forest shelter belts). Under this Component, the financial support provided by the Additional Financing of the Project will be demand-driven, supported on competitive grounds, based on the beneficiary communities’ requests and eligibility. The beneficiaries will propose sub-projects, selected from the menu of investments mentioned above and based on agreed eligibility criteria and having the main objective to reduce water pollution with nutrients. For the approved sub-projects, between PMU and ATUs will be concluded the financing contracts for which the PMU staff will assure the implementation, monitoring and evaluation

activities, based on guiding principles and rules for implementation of the sub-projects at the local, regional and national levels.

**General Description:**

- a. The Technical Specialist is responsible for the implementation and monitoring of sub-projects that will be assigned under Component 1.
- b. The Technical Specialist is subordinated and will report to the Technical Coordinator of Component 1..

The individual employment contract will be concluded for a limited period of time, until 31.03.2022.

The minimum required qualifications are:

- academic education in engineering;
- a background of at least 5 years in implementation/management of construction projects;
- practical experience in the field of monitoring and evaluation of construction works projects;
- sound knowledge of the construction legal framework:
  - Law no. 10/1995 on construction quality, republished, as subsequently amended and supplemented;
  - Law no. 50/1991 on the authorisation of construction works, republished and subsequently amended and supplemented;
  - Government Decision no. 907/2016 on the stages of preparation and the framework-content of the technical-economic documentation supporting the investment objectives/projects funded from public funds, republished and subsequently amended and supplemented;
  - Government Decision no. 273/1994 on the approval of the Regulations regarding the reception of the work constructions, subsequently amended and supplemented.
- Experience in working with the World Bank's financed projects is a plus;
- relevant experience in producing various reports to a large number of institutions;
- advanced PC skills and sound knowledge of the MS Office package: MS Word, Excel, Access, Outlook, Power Point;

- sound knowledge and experience in working with dedicated software (AUTOCAD) for designing activities for construction works and for developing of bill of quantities is a plus;
- good command of spoken, written and read English is a must;

The selection process will be held in accordance with World Bank selection of consultants: "Guidelines: selection and employment of consultants under IBRD loans and IDA credits & grants by World Bank borrowers" (January 2011 and revised July 2014).

Details regarding the recruitment, the terms of reference and the required qualifications are available at the below mentioned e-mail addresses or on the websites of the Ministry of Waters and Forests ([www.apepaduri.gov.ro](http://www.apepaduri.gov.ro)) and of the Project <http://www.inpcp.ro>).

Interested candidates are invited to submit a file containing the following documents:

- application letter in both Romanian and English languages;
- Curriculum Vitae in both Romanian and English languages;
- copy of ID card;
- copy of the employment book or certificate/certificates confirming length of work experience;
- a declaration that he/she has no penal record which would make he/she incompatible with the job for which the application is submitted;
- medical certificate attesting a proper health, issued up to 6 months prior to the competition deadline;
- other relevant documents (diplomas, certificates, recommendations, etc.).

The selection of the candidates will be carried out on the basis of the assessment of files and supporting documents and the suitable candidates will be contacted by phone/e-mail for the interview.

The applications will be submitted to the "Integrated Nutrient Pollution Control" Project Management Unit - Ministry of Waters and Forests, 46-48 Calea Plevnei, Entrance E, 1<sup>st</sup> floor, room 11, District 1, Bucharest or by e-mail at: [catalina.criveanu@map.gov.ro](mailto:catalina.criveanu@map.gov.ro), [raluca.mateescu@map.gov.ro](mailto:raluca.mateescu@map.gov.ro) and [anna.mares@map.gov.ro](mailto:anna.mares@map.gov.ro).

In case the application file is submitted electronically at the above mentioned e-mail addresses, all documents that were requested to be submitted in original through this advertisement, must be furnish in original by the candidate during the selection process, at the request of the selection commission.

Closing date for submissions of applications, by e-mail or in hard copy at PMU's office mentioned above is **10<sup>th</sup> of May 2019, 12:00 hour, local time.**

Additional information can be obtained at the representative of the "Integrated Nutrient Pollution Control" Project Management Unit (PMU) at the above e-mail addresses.
